MozOut or BuyuHost: comparison and which to choose in Mozambique

 Comparisons and alternatives Created on **August 16, 2026** Updated on **October 22, 2026** 5 min read

By the MozOut editorial team · Updated 15 October 2026 · Data from the providers' public pages, consulted in October 2026.

BuyuHost presents itself as web hosting and domain registration. On 15 October 2026 the website buyuhost.com did not respond (connection timed out on three attempts), so the points without data are marked as not stated; confirm them directly with the provider.

Both are local providers, both sell hosting and domains. The short answer: **on the basics they are similar**, and the choice comes down to three or four details. Let us go through them one by one.

Hosting and panel

1 MozOut - **cPanel** on Linux hosting and **Plesk** on Windows hosting, with CloudLinux, free SSL and Imunify360. Clear per-account limits - that is what stops a neighbour's site ruining your day.

2 BuyuHost - Panel and plan details not stated on the public pages consulted; check with the provider. Ask them directly.

Domains

1 MozOut - **.mz** registered with **CIUEM** by us, with a **DNS manager in the panel** and nameserver changes you make yourself, at any hour.

2 BuyuHost - They also present themselves as a domain registrar (see their site for the extensions available).

💰 How you pay

- 1 **MozOut - Meticaís**, with a local invoice your accountant accepts.
- 2 **BuyuHost** - Billing currency not stated on the public pages consulted; check with the provider.

🕒 Backups

- 1 **MozOut - Every night before dawn, kept for a year**, restored through JetBackup from the panel.
- 2 **BuyuHost** - Not stated on the public pages consulted; check with the provider.

🗨️ Customer support

- 1 **MozOut - WhatsApp, panel ticket and e-mail 24 hours a day, plus phone calls from 08:00 to 16:00** - all in Portuguese, with a written record of everything asked and done kept in the panel.
- 2 **BuyuHost** - Advertises **24/7** support.

📦 For companies: VPS and reseller

- 1 **MozOut** - VPS, Cloud, dedicated and reseller. Servers are **unmanaged** by default - delivered with the OS and full access.
- 2 **BuyuHost** - Not stated on the public pages consulted; check with the provider.

☆ Where BuyuHost is strong

If you already work with them, or someone you trust recommended them, that knowledge beats any page - ask them for the details missing here.

☆ Why we recommend MozOut

If you want **everything in one place and in local currency**: national domain, hosting, e-mail and invoice on one account. We are among the few who state in writing **how long backups are kept** - one year - and let you **restore them yourself** from the panel, with no ticket and no waiting. Add **CloudLinux**, which stops a neighbour's site ruining your performance, **Imunify360** against malicious code, **free SSL that renews itself**, **free migration of your current site**, **free .mz transfers**, over **100 domain extensions** and one-click WordPress.

Entry price: the **Hospedagem Pro** plan starts at **MT 600/month (7,200 a year)**, with **SSL, backups and cPanel included**. *Price current in August 2026 - check the store for today's figure.*

In short.

For a business in Mozambique - with a national domain, an invoice in local currency and someone who answers any hour by WhatsApp, ticket or e-mail - **MozOut** is the choice we recommend. And if you ever change your mind, you take everything with you, with no fee.

The test worth more than this article.

Before deciding, send a technical question to both support teams and compare how long they take and how good the answer is. That applies to them and to us - it is how you judge a provider.

The BuyuHost website was consulted on 15 October 2026 and did not respond (connection timed out). We did not test their services, and the information may have changed since. If you spot anything out of date, tell us and we will correct it.
